

Design for the first "Standard Humanism Headquarters"

This architectural design is based on my recent research and design of **Hanging Gardens of Babylon** as one of the *7 wonders of ancient life* which now I am turning it to the building of **The First Standard Humanism Headquarters!** To be suggested and be built as a magnificent masterpiece as well as a center for the new researches in the field of: **The best way of human life administration**, according to *The Philosophy of Standard Humanism*, that is based on: *peace, respect, purification & understanding*.

The specific characters of this design makes it possible to **host** scholars, meetings and visitors from all around the world (**both as study center & hotel**) who are interested to witness the first steps in the new changes of human life by the philosophy of respect and understanding in *The New Way of Standard Humanism*.

There are five and five things there!

There is five (1) & five (2) & five (3) there in matching to make the **5 floors of Hanging Gardens** reasonable and to be accordable with the **principles and departments of Standard Humanism** in constructing this design, as the **best design** for the building of the first Standard Humanism Headquarters!

They are;

A / Principles:

- 1- Believe in God as the creator and the universal truth. (Real believe or symbolic!...)
(This means there is a source of truth to unite and cover mankind under righteousness...)
- 2- Believe in one of the recognized beliefs & religions. (Abrahamic, Dharmic, Taoic, Indigenous, Secular etc.)
(This means everyone has the right to choose his/her way of living...)
- 3- Believe in the common characteristics of all the beliefs, to be set up as the **principles of international life of mankind!**
(This means all should be mentioned and respected in the universal culture of mankind...)
- 4- Vote for constructing the new organization to administer new human life! That is **The Worldwide Standard Human Society.**
(This means we need a perfect international organization to protect us...)
- 5- To be clean and pure in our life. (Mental and physical life)
(This means we are the clean, pure and wise creature on this earth...)

B / Departments:

- 1- Religions & beliefs...
- 2- Cultures & beauties of life...
- 3- Politics & management...
- 4- Economics & trades...
- 5- Sciences & knowledge...

In this way in;

Top floor (5): All religions & beliefs **come out of** God and the Truth! Thus **the first principle** and **the first department** are placed - philosophically - in the top floor of the design!

The next floor (4): Believe in one of the recognized beliefs & religions **with** the Cultures & beauties of life in the next floor!

The next floor (3): Believe in the common characteristics of all the beliefs **with** Politics & management!

The next floor (2): Vote for constructing the Worldwide Standard Human Society **with** Economics & trades!

The next floor (1): To be clean and pure in our life **with** Sciences & knowledge!

All these mean:

To construct something beautiful and correct as the first building of an office, to start the best possible start in making a place to change human life from primitive nature to an advanced one by Standard Humanism!

Standard Humanism is a Humanistic Belief;

With the slogan of:

"We need the best world, because we are the best Human beings - 7 billion human beings"

Standard Humanism believes in:

- 1/ politics & management;
- 2/ religions & beliefs;
- 3/ cultures & beauties of life;
- 4/ sciences & knowledge;
- 5/ economics & trades;

as "**The five top human life facts**" which should be respected, purified and mentioned in constructing new human life out of the influence of ignorance and oppression of **Satanic 10 percent** which according to the Philosophy of Standard Humanism for thousands year ruined the human life by their selfishness or weaknesses, and now by Standard Humanism - **We** as the seven billion human beings by all our having - should be united to eliminate their tyranny or superstition thru the believe in **The five well recognized Principles of Standard Humanism!** (Discussed in the book) And by the new management and administration of human life in third millennium (based on five top human life facts, in above) thru the **Worldwide Standard Human Society Organization** instead of **UN!**

This is available on site in the hope of having any respectful cooperation in constructing the first Standard Humanism Headquarters as well as the first study center to promote human life by the participation of all recognized scholars!

This is also sent to more recognized Offices of democratic countries to capture more attention & cooperation and even to build the equal centers to share more spaces and knowledge, and hence to step forward faster in changing human life to what we really deserve.
